This facility has on staff an advance practice nurse to assist in the delivery of medical (may indicate specialty) care.

An advance practice nurse is not a doctor. An advance practice nurse is a registered nurse who has received advanced education and training in the provision of health care. An advance practice nurse can diagnose, treat, and monitor common acute and chronic diseases as well as provide health maintenance care. In addition, the advance practice nurse may treat minor lacerations and other minor injuries.

I have read the above, and hereby consent to the services of an advance practice nurse for my health care needs.

I understand that at any time I can refuse to see the advance practice nurse and request to see a physician.

Child's Name:	Date
Signature of parent:	Witness: (optional)

All articles and any forms, checklists, guidelines and materials are for generalized information only, and should not be reviewed or referred to as primary legal sources nor construed as establishing medical standards of care for the purposes of litigation, including expert testimony. They are intended as resources to be selectively used and always adapted – with the advice of the organization's attorney – to meet state, local, individual organizations and department needs or requirements. They are distributed with the understanding that neither Texas Medical Liability Trust nor Texas Medical Insurance Company is engaged in rendering legal services.
